USE OF COOKIES

The website https://aqua-floors.com/ uses cookies to provide services, personalize ads, and analyze visitor traffic. Cookies are small text files that are stored on your PC, tablet, or smartphone. Some of these files are essential for the optimal functioning of the website, while others help us analyze the website or provide a better user experience (remembering users and organizing website content according to their preferred interests, making it easier for users to browse the site).

These websites use both temporary cookies, which are stored on the user's device only for the duration of the session, and permanent cookies, which remain stored on the user's device depending on the set lifespan of a specific cookie file.

1. COOKIES USED ON THE WEBSITE

Universal Analytics

These websites use the Universal Analytics service (Google Analytics) provided by Google, Inc. ("Google"). The Universal Analytics service uses "cookies," which are text files stored on your computer, enabling the analysis of how users use this website. Information generated by the cookie about the use of the website (including your IP address) will be transmitted to and stored by Google on servers in the United States. Google will use this information for the purpose of evaluating the use of the website and creating reports on its activity for its operators, as well as providing other services related to the website's activities and internet usage in general. Google may also provide this information to third parties when required by law or when such third parties process this information for Google. Google will not associate your IP address with any other data it has. By using this website, you consent to the processing of data about you by Google in the manner and for the purposes set out above.

For detailed information on Google Analytics and data privacy, please visit http://www.google.com/intl/en/policies/privacy/.

If you wish to prevent tracking, you can install a browser add-on (https://tools.google.com/dlpage/ga-optout).

Other cookies used on the website

• Necessary cookies help create websites' basic functionality, such as page navigation and access to protected website areas. Websites cannot function properly without these cookie files.
• Preferred cookies allow the website to remember information that changes how the website behaves or looks, such as your preferred language or region.
• Statistical cookies help website owners understand how they interact with website visitors by collecting and reporting information anonymously.

• Marketing cookies are used to track visitors on websites. The aim is to display ads that are relevant and engaging to individual users, making them more valuable to publishers and third-party advertisers.

• Unclassified cookies are cookies that we are currently categorizing, along with the providers of individual cookie files.

2. COOKIE SETTINGS (REMOVAL)

Cookies are enabled by default in most browsers. If a user does not want to use cookies or wants the internet browser to notify them of cookie usage, they must make the necessary settings in their internet browser. For more information on how to enable and disable cookies and how to delete them, refer to the help section in your browser. Disabling cookie usage may result in the limitation or unavailability of certain functionalities of these websites.
